# Lock Down in the Capital City

As of February 20<sup>th</sup>, Covid-19 began to spread quickly in Phnom Penh city and several provinces. Consequently, by the end of March the capital city is in full lock down. This surge is more serious as greater numbers of people are being infected: more than 400 people per day. However, the government and doctors are working very hard as it spread mostly among factory workers. Please keep praying for our workers and pray that God will protect people around the world. The HCG team really thank God for keeping us and our listener groups safe from Covid-19.

Our TWR-Cambodia office was closed for a month, so we worked from home. However, by mid May, most of the areas in Phnom Penh are open, except for RED zones in which they still cannot travel yet. On the other hand, vaccines for Covid-19 have been provided to people in the city and some provinces. We still need your prayers as the number of new cases is still high.

May God Protect Cambodia!

# Lock Down in the Capital City: Food Offering/Community Table

As part of Phnom Penh City is still designated as Red Zone, we have planned in May to work with one family, who are our listeners living there, to cook for the people in that area. They will cook only on weekends to prepare one package per person. They provide 50 to 70 package for free every week. We plan to do this until they can get back to the normal life. As they cannot go to work, they have no income. We hope it will provide extra help to supplement the limited food the government is providing for them. We decided to cook the food instead of giving fresh food (vegetable and meat) because it costs less, and we can help more people. Furthermore, we hope and pray that people living in that area will be able to hear the Gospel. Some of the children were interested in Good News Reader during the first week of sharing the food. We pray that there will be a cell group created there soon.

# Funding Support From Phillip Bank Cambodia

We thank God that Phillip Bank in Cambodia began to provide funding support from April 2021 for broadcasting on four FM radio stations. Therefore, we need to produce short spots for our sponsors and add some lessons related to financial topics into our programs. We think it is such a great opportunity as we will interview officers from Phillip Bank who are the experts on how to make money work for the family and especially for the children. However, our format of the program is still the same as we still have Bible story telling, kid's songs, and lessons for health or finance. This is what we are going to do; we will choose financial topics which be helpful for our listeners, and then Phillip Bank officers will provide us the lesson or an interview. For some topics we don't need to interview the people from the bank, we might find other speakers who are a good role models instead.

HCG program is on air with 16 FM stations which are supported 12 by churches in South Australia and four by Phillip Bank Cambodia. We thank God for blessing the HCG program. We also keep praying for our donors as they have a heart for children in Cambodia. May God bless them and bless through their hands as well.

Starting from April 2021, our Facebook page will add sponsors, our contact number, and QR code as you can see in the picture.

# Listener's Feedback

## A New Leader in Ratanakiri

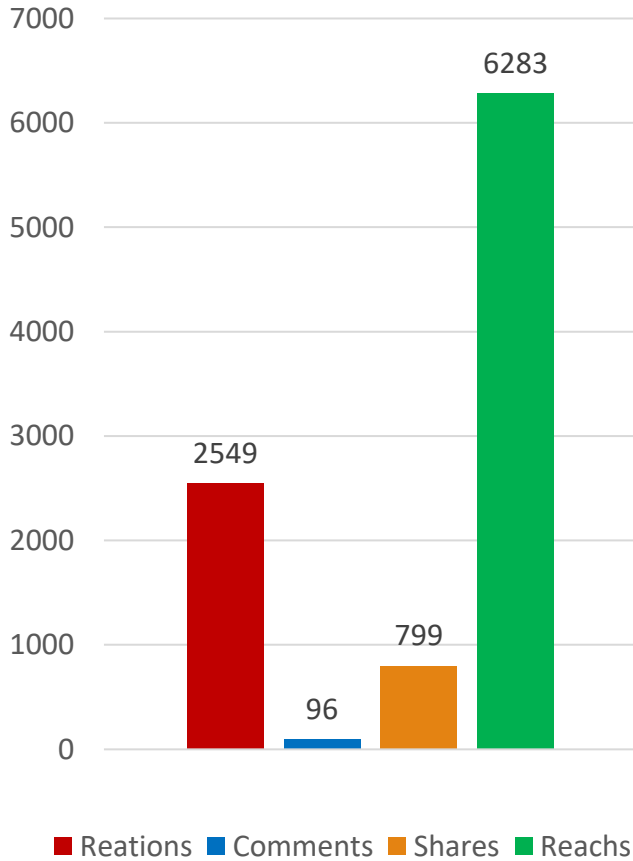

She is actually not a Sunday school teacher, but she needed to take over the leadership of the children listening to HCG program because her daughter left to study in the town. Her daughter is the one who first brought the HCG for the kids at church. She said “it is hard for me as I have never taught the children before. Also, I don't have much time to prepare the lesson and explain the meaning of the story to the kids because I need to take care my mother who is very old and very sick at home. But I feel like it is the best program to help the children grow in faith. That's why I still keep up leading them. I pray everyday that God will strengthen me and provide me more wisdom. Also, people around me and HCG team always encourage me to trust God and try the best as I can. I found there are lots of supports which provide strong encouragement that helps me to continue in serving. Unfortunately, since Covid-19 outbreak at the end of February, I decided to postpone gathering the children till now. I pray that God will protect us, and I believe that His hands will work through our prayers. As I listen to the HCG program personally, I understand more about the Bible story. Thank God for this great time.”

## A leader in Ratanakiri

“We had so much fun on Easter Sunday because we enjoyed decorating eggs with children and youth. We also learned together about the meaning of Easter. We experienced the joy in knowing Jesus is risen. He is our Savior, and He is a living God. We also listened to It's Yours! program and HCG program about the Easter story on that day. It was such a beautiful day. Thanks be to God,”

During the pandemic, all the churches in the city had Sunday service online but the churches in provinces still went to church with very few people. Gathering in group is not allowed, so they cannot meet with the children. which is why we received only 523 letters for March and April. We don't know when churches and the children can get together again. Please keep praying for them. May God led them to stay close with Him. Still, many were able to listening to HCG program through our Facebook page as we uploaded a new weekly program each Sunday morning.

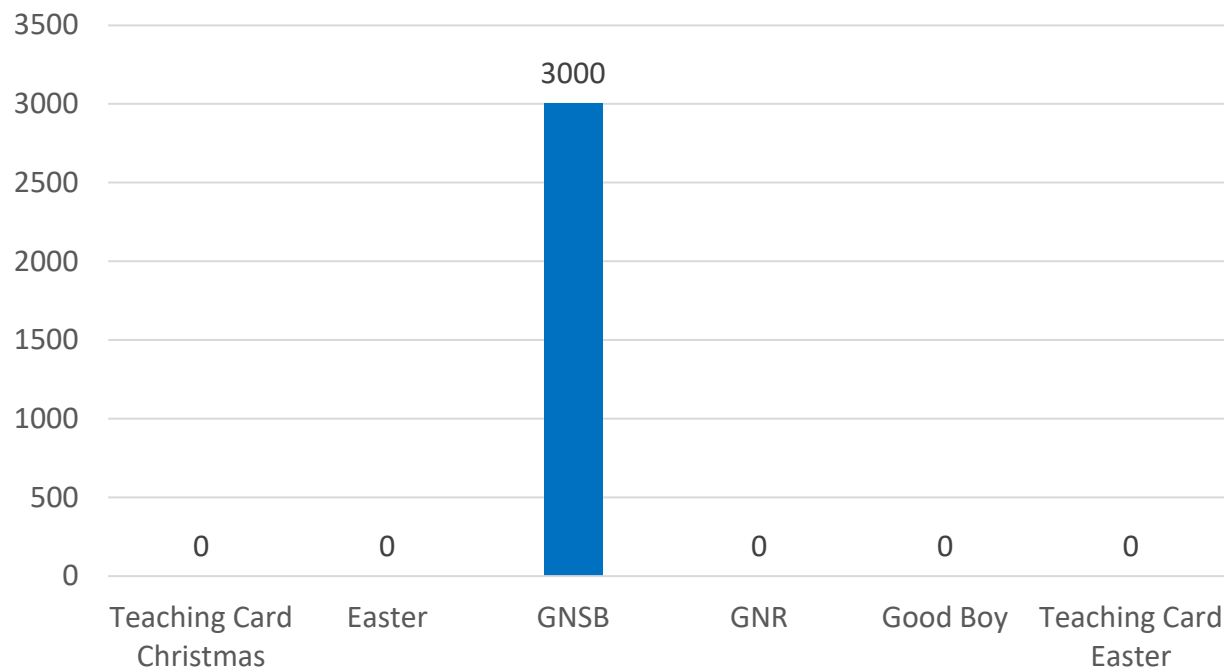

Children are writing letter after listening to HCG program.

# Book Distribution

March-April 2021

**Note:** Because of Lock Down we cannot send any item out of Phnom Penh city. We planned to send speaker boxes, Bible booklets and gifts to listening groups before Khmer New Year, but with the pandemic outbreak, we needed to stay home. We plan again to send these after lockdown, hopefully by the end of May. Please keep praying for Cambodia.
